Cappuccino

A cappuccino is similar to a latte. The key difference between a latte
and cappuccino is that a cappuccino has more foam and
chocolate placed on top of the drink.

A cappuccino is made in a cup rather than a tumbler glass.

Latte

A latte is a café latte made in an espresso cup. This means it has a very
strong but mellowed down espresso taste thanks to the steamed milk and
micro foam within it.

Espresso

The espresso (aka "short black") is the foundation and the most important
part to every espresso based drink.

Americano

A long black (aka "Americano") is hot water with an
espresso shot extracted on top of the hot water.
